■ Recommendations

1. Your filler rate is 14.5/min — significantly above the comfortable threshold of ~2/min. Try pausing silently instead of filling the gap with 'um' or 'uh'. Practise deliberate pauses during preparation.

2. Speaking rate (157 WPM) is in the ideal range (120–160 WPM). Well done!

3. Your most frequent filler is 'right' (13×). Being aware of your specific filler habit is the first step — record yourself and listen back.
